POWER
Out of the tumbled mountains of northern California, among which Mount Shasta's snowy crest is the highest (14,161 ft.), rush three sturdy rivers—the Pit, the McCloud, the Sacramento—to unite under the latter's name in a deep valley just above Redding, California.
Since 1866 engineers have dreamed of throwing up a dam below the rivers' confluence, to stabilize the water supply of the whole fertile Sacramento Valley. Besides irrigation and flood control, hydroelectric power would be a by-product, perhaps making profitable the mining of ores now locked in the wild Siskiyou Mountains north of Shasta.
Last week, after years of promotion by Californians, the U. S. Bureau of Reclamation (Department of the Interior) gave the go-ahead signal to Pacific Constructors, Inc., a company syndicate which successfully bid \$35,939,450 for the erection of Shasta Dam.
The project will cost in toto upwards of \$170,000,000. A long system of canals and transverse ditches will be dug, to carry water not only to Sacramento Valley farmers but south into the San Joaquin Valley, whence waters have been diverted to thirsty Madera, Fresno, Tulare, Kings and Kern counties.
Shasta Dam will be one more world wonder for Californians to boast about—more than half again as vast bulk of masonry as the Great Pyramid, only 167 ft. lower than Boulder dam (world's highest: 727 ft.), only 90 ft. shorter at the crest than Grand Coulee (world's longest: 4,200 ft.). World's No. 2 Dam in these respects, will be No. 1 for the height of its verflow: 480 ft., or thrice the fall of Niagara.

BUSINESS
The business outlook, so far as the domestic picture is concerned, remains good. If only the internal problems were involved, it seems evident that this recovery movement could continue, at least for the next six or eight months, and that security prices would tend upward accordingly. However, there is an extremely large fly in the ointment—the European situation. That was vividly demonstrated in the week just ending. Industrial statistics were encouraging, there were no unusual or unlooked-for political complications, and the stage was set for a sustained rise in security prices. But prices sagged, and the week as a whole was disappointing on all counts—principally because of the fears of war.

With the introduction of new Buick models scheduled in the near future, officials of the Belli Motor Company of Colma and South San Francisco left for Los Angeles this week to visit the southern California Buick plant and take an advance look at the forthcoming line of cars.

The occasion, they said, is the pre-announcement sales convention of the Pacific Coast Buick dealer organization, at which the new cars are shown to the dealers for the first time and the 1939 sales program discussed.

They announced that word from the factory indicates that an enlarged program will be undertaken for 1939 in view of the encouraging business outlook and the increased demand for automobiles which already is being felt.

"We have had a very satisfactory year with the 1938 models," Mr. M. J.

11 Die, 100 Injured In Train Crash

Eleven persons died and 100 were injured in a spectacular train crash at Tortuga, Cal., early September 20. The Argonaut, en route from New Orleans to Los Angeles, plowed into the eastbound Californian which was on a siding. Southern Pacific headquarters in San Francisco announced that preliminary investigation at the scene had disclosed that the "head-in" brakeman for the Californian "lost his head" and threw the switch which sent the Argonaut into its stopped sister train. Eric Leonard Jacobson of Los Angeles, a veteran brakeman with a good record of 18 years with the company, admitted that the oncoming train confused him and that he threw the switch. Photo shows a general view of the wreckage taken from the air.

RESIDENTS ARE ENTHUSIASTIC ABOUT STREETS

**Possible Help
From WPA
Grant**

NO SPECIAL SURVEY

Residents of southern Daly City expressed enthusiasm this week at the prospect of having street improvements made below School street.

Post cards sent out by the city council two weeks ago to residents of the southern section of this community have been returned authorizing continuance of procedure toward improvements without a special assessment investigation as provided for in the Limitation and Majority Protest Act of 1931. Such authorization is speeding procedure and will effect a saving of approximately \$1400.

Application has been made for a federal grant to aid construction costs. It is hoped that a grant will be made and work can be started in the near future.

Street work, curbs and gutters and side walks are to be included in the improvement plans.

DALY CITY RECREATION PLAN TO INCLUDE VARIED PROGRAM OF ACTIVITIES FOR GROWN UPS

**Table Tennis, Whist Proposed;
School To Cooperate**

A meeting of the Daly City Recreation committee, composed of James Ferguson, Mrs. M. Boyle, Mrs. A. M. Eason, Mayor Paul G. Selmi, Richard Crane Jr. and A. J. Bodien, appointed some months ago by the mayor and city council, was held in the recreation department office Wednesday of last week.

Principal Ferguson, who was unable to attend the meeting, advised the department by phone that he and the trustees of the high school board were well pleased with the recreational program that has been and is being carried on in Daly City. Mr. Ferguson stated that the recreation department could depend upon him and the trustees for full cooperation and that to enable adults to participate, he will on Tuesday, Wednesday and Thursday nights open the ping-pong room at the high school for their use. Mr. Ferguson also suggested the possibility of sponsoring whist parties at the high school once a month.

ADULT FACILITIES

At the meeting, stress was laid upon the necessity of building up facilities so that the older boys and girls would have centers to play other than on the grammar school grounds.

Mayor Selmi requested the recreation department to lay out the park at Acton and Brunswick streets for playground purposes so that arrangements could be made immediately to open up that facility for children in the Crocker district.

Mayor Selmi reported that work was progressing rapidly in the Vista

Grande park and that it was hoped to have tennis courts, horseshoe courts and children's playground equipment installed within the very near future.

In talking over the facilities and activities in the various schools it was shown that General Pershing school had made remarkable progress. Starting just a few months ago with two children enrolled in the afternoon sewing classes, attendance has increased to more than 100. Thirty to forty children from 5 to 14 years old participated each afternoon, announced J. P. Hull, director

BERNARD SHAW GREAT COMEDY COMING TO S F

**Ann Harding Will Play Top
Role In "Candida"
At Curran**

Ann Harding as "Candida"—that sounds like important prospects in the realm of make-believe. The lovely stage and screen star will appear in person at the Curran Theater, San Francisco, in the famed George Bernard Shaw comedy for two weeks only, beginning Tuesday evening, September 27.

Homer Curran, who announced several months ago his intention of presenting a series of the classics with big-name stars, is presenting "CANDIDA" in association with Luther Greene, Greene, for those who may have forgotten, is the astute producer who last year presented Madame Alla Nazimova in Henrik Ibsen's "Ghosts."

SUCCESS

"CANDIDA" has remained for over 40 years the most successful of all Shaw's comedies. It is said to have been Shaw's answer to Henrik Ibsen's "The Doll House," written at a time when dramatic literature was undergoing a rapid change. Miss Ann Harding appeared as "Candida" in London last season with great success.

Far Western business, the review states, showed an important gain in August over July, and rose to its highest level since February of this year. The bank's preliminary August index, standing at 70.1 per cent of its computed normal trend value, was up 4.2 per cent over the previous month.

RODEO FEATURE OF SM COUNTY FLORAL FIESTA OPENS TODAY AT BAY MEADOWS RACE TRACK

**"The Rise Of Don Largo" Is
Colorful Pageant**

The big rodeo of the San Mateo County Floral Fiesta opens today on the Bay Meadows race track, San Mateo. The fiesta itself opened Wednesday night and the colorful pageant, "The Rise of Don Largo," was presented before a cheering crowd at that time.

Harry Rowell of Hayward has spent \$5000 in bringing the county's first rodeo to the fiesta. He brings 200 horses, nearly 100 expert riders. Purses totaling \$2000 are offered in final events which will be held Sunday afternoon. The rodeo begins at 2:15 today, tomorrow and Sunday.

The "first night" crowds Wednesday night strolled through the show, praised the many beautiful floral exhibits, cheered the pageant and its colorful settings, crowded through the gardens, the vegetable displays and the commercial exhibits, and then went home to tell their friends not to miss this year's fiesta.

Hanging cloths of blue and silver on one floor and of green and gold

on the second floor, form a soft, pastel background for the beautiful exhibits. Soft orchestral music adds to the entire show.

Entering the big hall, visitors pass through rock gardens, cactus displays and attractive landscaping. Just inside the doorway is a \$75,000 orchid exhibit with 100 varieties.

Throughout the ground floor are flower displays—orchids, begonias, roses, gardenias, gladioli—in attractive setting. One whole side is taken up with commercial displays.

Upstairs are the Colma vegetable displays, the Half Moon Bay sea chest of corn, Menlo Park bee cases, countless cans of preserved goods. In the clubhouse are gardens, displays of flowers and table settings, 4000 gardenias in one display, and other exhibits.

PWA Official Cites Danger Of Delays

After citing a recent warning issued by Public Works Administrator Harold L. Ickes concerning the danger of undue delays in getting approved Public Works Administration projects started, Kenneth A. Godwin, PWA Regional Director for California, Arizona, Utah and Nevada, declared that 25 grants have been withdrawn already because officials were guilty of dilatory tactics.

In all these cases, he added, PWA allotments had been made and 45 per cent of the cost of the projects was made available by the Federal government.

EXTRA

A late bulletin to The Record announces the Vista Grande Park proposed WPA project has been okayed and development of the recreational area is scheduled to start immediately.

The project calls for expenditure of more than \$20,000, 45 per cent of which is a federal grant, to construct a baseball diamond, football field and club house on the lower level of the park.

New Play By Ear Music System

A new method of playing by ear music system was announced this week by Emily and Maude Royle of the Guaranteed Piano System. The method has been copyrighted.

Portion of the instruction sheet reads:

"It is easier to learn to play most musical instruments by ear than it is to play them by note. The same faculty which enables you to find your way about in a dark but familiar room will, with practice, guide your fingers to the sound desired. Your mind which has already registered the notes of the songs you sing can easily reproduce those sounds on some instrument with a little practice. The only instruction necessary is to learn a few simple rules. To learn these rules is to understand the secret of the foundation of music, and the principal difficulties which confront and discourage many students of harmony vanish, thus encouraging and paving the way for serious study of good music."

It will not raise the funds to keep our schools open, provide aid for the needy or for the aged. Chaos in business, agriculture and government will result.

Jaysee Enrollment Passes 1000 Mark

With more than a thousand students already enrolled, San Mateo Junior College reports a much larger registration than last year. More students are entering college daily, and the total for the semester is expected to reach 1100.

While classes were being organized and student programs started, athletic coaches called turnouts for football, soccer, tennis, basketball and boxing. Fifty players are now practicing for the opening of the grid season, and other large signups are reported for each of the other sports.

There is a possibility that the jaysee gridgers may open their practice season with a game with the Santa Clara freshman eleven at Santa Clara, September 30. The valley team has the jump on the Mateans because of an earlier start in training, but the game would be worthwhile for the Mateans in that it would give them an inkling of their ability before they meet San Francisco Jaysee in a conference opener.

This evening the college will welcome the freshmen students to the school with the annual fall semester frosh reception. The big dance will be held in the college gym.

Many of the jaysee students are now assisting the County Fiesta in various activities.

"The Constitution is the living vital force of our lives, and our rights and freedom will last as long as it does," asserted Mr. Crocker, and went on to say that young people of America should realize the meaning of liberty, and also the freedom they enjoy in being able to discuss many topics, that the Constitution holds us firm, while many countries in Europe have no abiding laws or rights such as Americans enjoy.

WISTFUL MEN

Six centuries ago the monstrous pall of the Black Death spread over Europe. A fourth of the people died—crying out in stark terror of a deadly Something they could not comprehend. Three centuries later the monstrous pall spread over London—the Great Plague. In its shadow died 70,000.

Today that same pall would spread itself over California and six other western states. Plague germs have been found in fleas and rats. But now there is no terror. Science dissipates the pall, surely, easily, swiftly. Prophylactic measures already are in effect—sanitation and rodent extermination and fumigation. Science has conquered the Plague, as Science has conquered other enemies of man. Scientists are the truly great men of the ages. They are the men who have achieved, who should be gloriously happy. And yet—

Not long ago a wistful, sad-faced little old man arrived in England. He is a scientist who has spent his long life trying to help people to conquest over hate, distrust, jealousy, fear. He had been driven from his homeland because he is a Jew. He is Sigmund Freud.

Wistful must be the scientists who have given man wings to fly like birds—to see men using that power to destroy cities, to murder women and children. Wistful the scientists who have made of our trains swift arrows of stainless steel—to see 70 railway systems threatened with ruin through unreasonable demands of both labor and government, because man cannot get along with man. Wistful the scientists who have perfected the machinery for abundant industrial and agricultural systems—to see millions on charity for food and clothing while our marvelous factories close or curtail production, and crops are ploughed under or left to rot in the fields.

Greed, dissension, stubbornness, prejudice, intolerance: These are Plagues which seize upon the instruments of Science and turn man's hand against himself. Conquest of these must come from within the soul of man; Science is powerless before them.

SAVE

"And she shall bring forth a son, and thou shalt call his name Jesus: for he shall save his people from their sins."—Mt. 1:21.

Man is not able to plumb the depth of the meaning of the term "save." He uses this word constantly and in every conceivable time and place. The things which prompt the use of the term touch every phase of human emotion. From the beginning of his existence on earth until he fades away in the shadows of death, he desires to be saved continuously from many and varied things and conditions.

Human beings are conscious of the fact that they are erring creatures and the announcement of the angel to Joseph concerning the coming of Jesus, and the statement that through him should the people be saved from their sins, brought great joy to untold millions. Saving from the curse of sin was the greatest thing that could be done for the dwellers on earth, and Jesus came to do that.

With reference to the installation of playground equipment at the Acton-Brunswick location it was learned that some equipment is now in hand. Arrangements are being made to install the equipment in the near future.

Mayor Selmi announced that the city had budgeted \$15,000 this year for recreational purposes.

After the meeting adjourned, Mesdames Harris and Douglas from the San Mateo area gave a demonstration of Toy Symphony. The players were members of the recreation committee, recreation department, chief of police, employees of the water department and others who, without previous instructions, were able to play the instruments. Mesdames Boyle and Eason were enthusiastic over the demonstration, believing the children of Daly City would enjoy playing this Toy Symphony. Efforts will be made to organize a symphony here in the near future.

Look Before You Back

The following "horse sense" precautions in regard to BACK-ING were presented at the Western States Safety Conference held in Los Angeles last week. While the warnings were presented primarily to drivers of heavy vehicles, they are equally applicable to drivers of all types of cars, with the added warning that pedestrians and motorists must be watchful for heavy vehicles which are required to back in making delivery, or leaving the scene of a delivery.

1. Full responsibility rests on the driver who is backing over a sidewalk, to stop at the sidewalk line to make sure the walk is clear of pedestrians, and again at the curb line, for passing traffic.

2. Guiding should always be done by hand with the guider in full view of the driver. "Come on back" called by an invisible signaler is dangerous practice.

3. Do not depend entirely upon your rear vision mirror. It was reported that last year 37 per cent of one big company's avoidable accidents resulted from backing.

A good maxim for ALL drivers is to look before you back and keep on looking, and if necessary, get someone to help you look.—San Mateo County Traffic Safety Commission.

established a new world's land speed record of 357.50 miles per hour, this week at Bonneville Salt Flats, Utah, and John Cobb announced he would not run again this season.

DISASTER

Disaster struck at two widely separated points in the United States this week. Two Southern Pacific Railroad trains—the Argonaut and the Californian—crashed head on in a switch siding accident near Niland, Calif., with resultant death of 11 persons, injury to 115. A railway employee became confused and threw a switch causing the accident, it was said.

A tremendous tropical hurricane smashed across the Northeastern States Wednesday night, killing between 115 and 127 persons and leaving thousands more injured, missing or homeless.

Uncounted millions of dollars in damage was wrought and virtually whole sections of some cities were devastated.

The known death toll by States was: Massachusetts, 37; Connecticut, 21; Rhode Island, 32; New York, 18 to 30; New Hampshire, 7.

The hurricane, a tropical storm of 100-mile winds and tidal waves, swept up from the South and veered in from the coast with astounding force and suddenness. It was probably the worst in 50 years.

Drive To Reduce St. Mary's Debt

Beginning Sunday and continuing through next week, a thousand men and women are calling upon 40,000 representative families of Northern California to aid the Christian Brothers at St. Mary's College in order that the outstanding debt on the College property might be reduced by at least \$200,000. Cards for prospective donors have been prepared and all prospects will be invited to join in the association of "The Friends of St. Mary's," which was recently formed with the initial purpose of raising this jubilee fund.

Founded in San Francisco 75 years ago, the College has expanded during the years until now its several beautiful buildings are situated in an ideal setting in the Moraga Valley at Contra Costa County.

Its financial security, together with that of many other leading universities, received a serious setback during the several years of the late depression, but now the student body has increased considerably and when the brothers at the college receive the help of their friends as a result of the present appeal, St. Mary's will be in a position to compete scholastically with any other university in the country.

GOOD LIGHT WAS NEVER SO CHEAP

Better Light for Better Sight is now within easy reach of every home—thanks to the low electric rates in California—new low prices on light bulbs in Better Sight sizes—and the new Better Sight Lamps.

Now good light can help every family avoid the dangers indicated in these figures: One child in five in public schools, 40 college students in a hundred, and half the people over 35 have defective vision—much of it due to poor light.

Now every child may have sight-saving lighting for reading and study so that young eyes may develop normally. Now every grown-up may have the right kind and the right amount of lighting to reduce eye-strain and make seeing easier.

New Certified Better Sight Lamps make it possible to have scientifically correct lighting for every seeing purpose. Every child should have a Certified table lamp, which gives a wide spread of smooth, glareless lighting to save eye strain and help young eyes see easily.

This need not be expensive, for Better Sight Lamps are offered in many different models, at prices to fit every pocketbook. Begin to Light Condition your home with Better Sight Lamps. You'll add beauty and charm, and take a long step toward conserving eyesight.

Another development making it easy for every home to have Better Light for Better Sight, is the new Light Meter, which measures light as readily as a thermometer measures heat. Why not have the lighting tested in your home? It is a free service—there is no obligation.

PTA CONGRESS MEET-REGISTER PRO SALES TAX

Members Of 17th District Attend Annual School Of Instruction

Significant action was taken at the first official activity of Seventeenth District, California Congress of Parents and Teachers Inc., when several hundred members, meeting in the auditorium of the Burlingame high school for the annual School of Instruction last Friday, voted unanimously to "go on record as being opposed to the so-called 'Single Tax' and opposed to the repeal of the sales tax."

The meeting commenced with a group of songs, offered as a special surprise tribute to Mrs. Ralston, president.

Mrs. J. Stuart Moore, historian of the C. C. P. T., speaking on "How Parent Teacher History is Made," suggested using parliamentary law as a basic plan of living. "We should learn to live more harmoniously," observed Mrs. Moore, "with those who disagree with us. Friendly argument is stimulating. If we are big enough to concede majority rule and to respect the right of the minority, we will have courtesy and justice for all."

Mrs. C. D. Benninhoven, second vice president, issued an invitation to all to inspect the P. T. A. booth which will be on display at the San Mateo County Floral Fiesta from September 21 to 25.

BERNARD SHAW GREAT COMEDY COMING TO S F

Ann Harding Will Play Top Role In "Candida" At Curran

(Continued from Page 1)

cess and Bernard Shaw himself is said to have come into the city to take charge of rehearsals. Usually noncommittal, Shaw is said to have been very pleased with Miss Harding's interpretation of his greatest heroine, and not only did he attend the opening night but several subsequent performances.

GREAT CAST

Paul Cavanagh, popular Broadway actor, will appear as the Rev. James Mavor Morrell; Ernest Cossart will enact the comedy role of Mr. Burgess, a character Shaw created for his outflow of philosophy, and Eugene Marchbanks, the moon-struck poet, will be played by Clay Mercer, a brilliant newcomer to the legitimate field, and a discovery by Miss Ann Harding.

Phyllis Loughton, dynamic young directress from Broadway, who has worked with Norman Bel Geddes productions for the last few years, is responsible for the excellent staging of "Candida". Following its engagement at the Curran, the play will be taken to Los Angeles, and then possibly East.

Tallulah Bankhead, in "I AM DIFFERENT," closes at the Curran tomorrow night.

San Jose State To Play 12 Games

A contest every week from September 19 until December 3.

Just by way of getting off to a good start, the Spartans are playing two games in their first week of competition. On last Monday, just eleven days after the start of practice, they entertained Southern Arizona State from Tempe in a night game at Spartan Stadium.

This evening they will go into action again—this time against the California Ramblers.

Friday night, September 30, they entertain Cal. Tech. On October 7, Humboldt State comes here for another Friday nighter. October 15 will see Pacific University come down from Forest Grove, Oregon, to continue the Friday night series.
